HEWITSONS POLICIES

WHOLESALE PRICING:

To qualify for Wholesale you need to have our fires on permanent display in your showroom. If there is no display, price becomes TRADE which is wholesale plus 10%.

PLACING ORDERS:

Please email orders to firenze@firenze.co.nz

DELIVERY:

All goods are delivered to Dealers premises only. **NO EXCEPTIONS**

RETURNING GOODS:

When returning goods please ensure these are returned with documentation which also includes the original invoice number that these were supplied on (no number = no credit).

There will be a **15% Re-Stocking Fee**.

Returned items will be credited **less the freight charge** incurred by Hewitsons/Firenze.

Our delivery address is: **Firenze, 98 Niven Street, Onekawa, Napier.**

FREIGHT DAMAGE:

Please ensure your staff are aware of this:

Our units and heavy parts orders are sent with Mainfreight who **do NOT accept any claims for damage if a clean receipt is given**. Signing 'STI' next to the receiver's signature does not absolve the receiver from the responsibility for checking the goods are in good condition.

As we will be adhering to this policy ourselves we suggest you inspect the goods at the time of arrival and notify this office of any damage **immediately**.

Parts orders are sent by Courier and again if these are **not signed as damaged at time of delivery then no responsibility is accepted** by either the Courier or ourselves.

WARRANTY POLICY

Fires must be inspected **before** leaving the dealers shop for installation. If a panel, etc is found to be faulty or other parts missing due to non-inspection Firenze/Hewitsons will not be responsible for travel time to correct this fault.

Any warranty claim must be filled out completely (copy page 9) and emailed to us. No invoices relating to this will be paid without a Purchase Order number obtained from this office.

ACCOUNT PAYMENTS

Invoices are due for payment on the 20th of the following month, a **5% Prompt Payment Discount will apply**. Accounts not paid on time will automatically be placed on stop credit and orders will not be processed. We also remind you that under our terms of trade an interest charge can be added to your account for overdue invoices.

Please ensure any payments direct to our bank account are clearly identified, or email advice of payment.

Payments made by credit card incur a charge of 3%.

WARRANTY CLAIMS

All claims must be as a result of a manufacturing defect NOT normal wear & tear.

Abbreviation of Warranty wording: For a full Warranty Statement refer to the Installation and Operations Guide that is supplied with the Wood Fire.

**Firenze Woodfires Warranties
Hewitsons Limited - Trading as Firenze gives:**

A Ten (10) year Warranty for the Steel Firebox, Fascias and Cast Tops.

One (1) year Warranty for all Components - including Refractory Linings, Door Glass, Air Pipes and Air Jets, Wetback, Seals, Tapes, Extrusions, Paint.

The Warranty periods commence on the original date of Sale of the relevant Firenze Woodfire to a Consumer.

The Warranties are given in respect of any defects in the specified Firenze materials and workmanship that render the components unfit for normal domestic use.

The Fire must be operated in accordance with the Installation and Operation Guide.

We guarantee to repair or replace defective parts at the discretion of the manufacturer, Hewitsons Limited with no cost to the purchaser.

Refer to page 7 for our policy regarding claims.

Heating guide is an estimate only as it depends on stud height, insulation, flooring, curtaining etc.

An explanation of how a Firenze outside air kit works is on page 12 and 13.

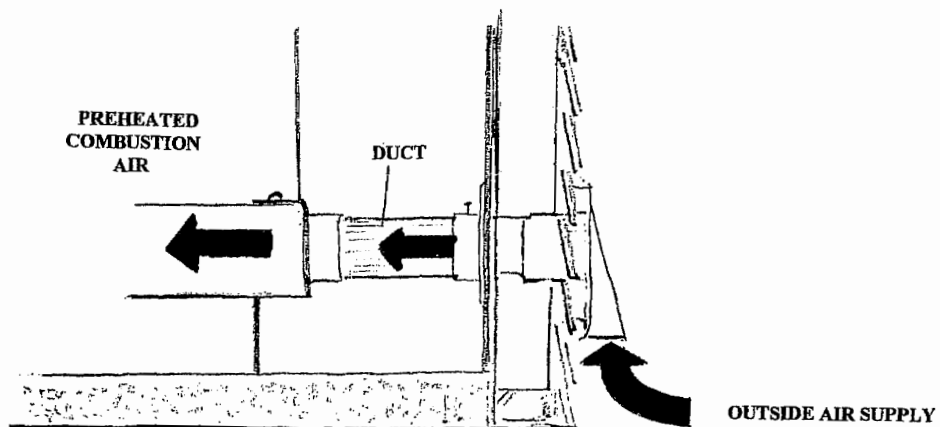

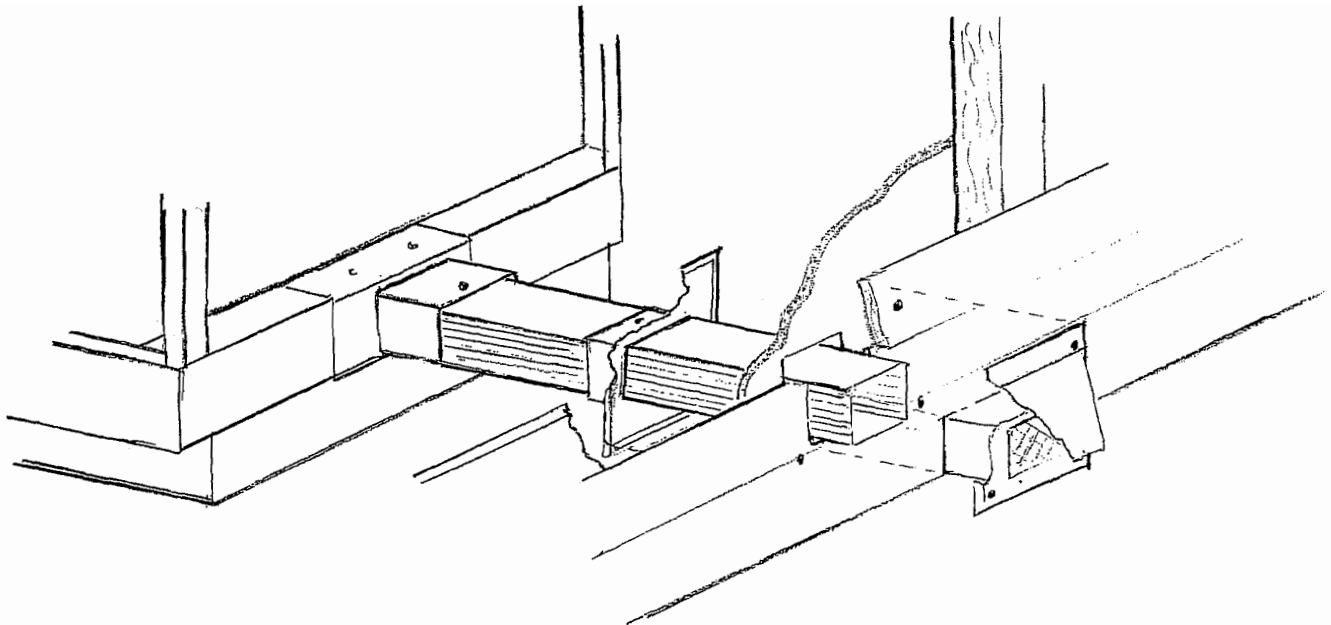

All installation instructions are available on our website: www.firenze.co.nz and should be copied off as and when required as we make updates periodically.

OUTSIDE AIR KIT

**FOR BRONTE, CONTESSA, ENCORE,
LADY KITCHENER & VIKING**

EXPLODED VIEW

OUTSIDE AIR KIT

**FOR BRONTE, CONTESSA, ENCORE,
LADY KITCHENER & VIKING**

OPTIONAL EXTRA

Most woodstoves when operating fully, draw over half a cubic metre per minute of warm air from the room for combustion.

We offer an outside air kit that eliminates this waste by directing outside air to the air supply ports located inside the firebox.

By directly connecting the combustion air from outside the home to the fire, the heated room air is not lost up the flue when the fire is burning therefore helping to eliminate cold drafts and wasted energy.

This will also help to remove woodstove odour or cold drafts that can invade the home when the fire is not in use.

We particularly recommend the fitting of an outside air kit in newer homes and where ventilation systems are present, to prevent air supply difficulties.
